

A close-up photograph of a person's hands using a silver knife and fork to eat a meal. The meal consists of a piece of salmon, a portion of purple rice, and some green vegetables. The person is wearing a ring on their left hand. The background is blurred, showing a white plate and a dark placemat.

HILLWOODS SCHOOL

TABLE MANNERS

Activity

2021-22

Primary Class Activity

Table manners activity was conducted for the students of the primary wing on 24th April 2021. Students were briefed about some of the basic etiquettes that one must follow while eating food.

The importance of correct posture while eating was emphasized. They were told that talking while eating ,slurping or eating with one's mouth open are counted as indecent .They were explained that they must take food in the required quantity and should not waste it and also that the person who has prepared the food has put in a lot of effort so he/she must be appreciated . We must also express our gratitude for the person . Above all we must not forget certain traditions that are specific to our culture when it comes to food, so we must respect them as well.

Children were then asked to eat the fruit/vegetable salad that were asked to prepare a prior, keeping all the basic etiquettes in mind .

Children relished the food as enjoyed the activity too. It was a great pleasure watching the kids following the instructions given by the teacher.

with your mouth closed

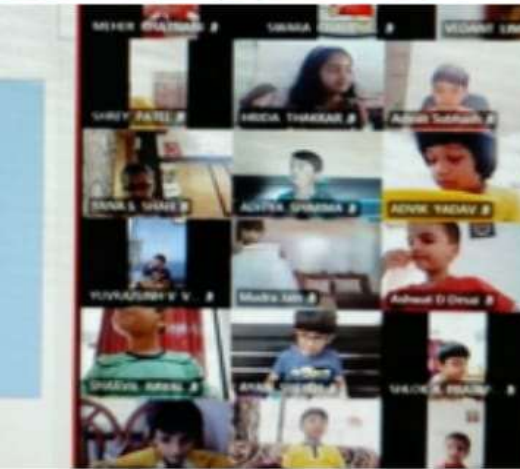

Wash Your Hands!

Eat over plate

Use a napkin

Give Thanks!

No elbows on the table

No Talking while eating
